# New Products

## **T1-Maxi Ultrapure Plasmid Extraction System**

**Cat.# T1MAX1001 (10) / T1MAX1002 (25)**

Pellet-Spin free, Endotoxin free, Transfection grade plasmid extraction system.

## **FFPE *miTotal*<sup>™</sup> RNA Extraction Miniprep System**

**Cat.# FFVTR1001 (50) / FFVTR1002 (250)**

Fast and efficient extraction of total and micro RNA from difficult to extract FFPE (formalin-fixed, paraffin-embedded ) samples.

## **FFPE DNA/RNA Extraction Miniprep System**

**Cat.# FFDR1001 (50) / FFDR1002 (250)**

Fast and efficient extraction of total nucleic acid, including genomic DNA, total and micro RNA from difficult to extract FFPE (formalin-fixed, paraffin-embedded ) samples.

## **Single cell *miTotal*<sup>™</sup> RNA Extraction Miniprep System**

**Cat.# SCVTR1001 (50) / SCVTR1002 (250)**

Efficient recovery of total and micro RNA from a single cell, allow quantitative RNA analysis of individual cell.

# Upgraded Products

## **Blood Genomic DNA Midi/Maxi Extraction System**

**Cat.# GGD2001 (20) / GGD2002 (50)**

**GGM2001 (10) / GGM2002 (25)**

Fast and simple genomic DNA extraction from 6 - 10 ml whole blood, high genomic DNA yield (50-150 ug).
